

“Dr. Haas says...”Talk to your kids about sex, before they make you grandparents!”

The Wapello County Teen Pregnancy Task Force is a grassroots effort to educate our community on the risks of adolescent pregnancy. We also stress the importance of pregnancy prevention to our youth. Each year a group of high school teens visit every elementary school’s 5th graders. They perform skits to demonstrate to children why it is important to postpone sex. The 5th Grade Pregnancy Prevention Program has continued to be a vital part of the 5th grader’s sex education for several years.

The Wapello County Teen Pregnancy Task Force also likes to inform the public on the affects teen pregnancy has on all of us as community members. We enjoy making appearances and presentations whenever possible. If you would like more information, or would like to be involved please contact us! If you have an event where you would like us to present, we’d love to work it out!
